SUMMARY

Highly motivated Information Technology undergraduate at Manipal University Jaipur with strong foundations in Python, Java, Data Structures & Algorithms, and Artificial Intelligence. Skilled in Machine Learning, NLP, RAG, and software development with hands-on experience building AI-powered applications and intelligent recommendation systems. Passionate about solving real-world problems using scalable technology solutions and continuously exploring modern AI technologies. Seeking AI/ML or Software Development internship opportunities to contribute technical expertise, creativity, and problem-solving abilities in an industry-driven environment.

EDUCATION

Manipal University Jaipur — Jaipur, Rajasthan
B.Tech in Information Technology | 2024 – 2028

Ryan International School — Faridabad, Haryana
Class XII (Non-Medical) — 80%
Class X — 90%

EXPERIENCE & LEADERSHIP

HackOn with Amazon – Hackathon Participant

- Participated in Amazon's national-level HackOn innovation hackathon focused on solving real-world software problems.
- Collaborated in a team environment to build scalable and innovative technology solutions under strict timelines.
- Gained exposure to industry-level software development workflows, problem-solving, and AI-driven applications.

Cricket Team Member – Manipal University Jaipur

- Represented the university cricket team in competitive tournaments, demonstrating teamwork, consistency, and discipline.

U-19 School Cricket Captain

- Led the school cricket team and developed leadership, communication, and decision-making skills.

PROJECTS

CricTech | Python, Machine Learning, NLP, Pandas

- Developed an AI-powered smart cricket gear comparison and recommendation platform for cricket players and enthusiasts.
- Built a multi-platform comparison system for tracking cricket gear prices across online websites.
- Designed personalized recommendation logic using Machine Learning and NLP concepts based on user preferences and playing style.

AI Resume Analyzer | Python, NLP, Machine Learning

- Developed an intelligent resume analysis system that evaluates resumes based on skills, keywords, and job descriptions.
- Implemented NLP techniques to extract important information and provide personalized improvement suggestions.
- Designed a scoring mechanism to compare resumes against industry requirements and internship roles.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Web Development: HTML, CSS

AI/ML: Machine Learning, NLP, RAG, NumPy, Pandas

Core CS: OOPs, Data Structures & Algorithms (Python)

Tools: MATLAB, Git/GitHub
